We at Blocktronics (B7) are proud to present the annual Blocktronics calendar. This year's calendar is a collaborative project between 11 artists drawn from Blocktronics members and special guests, and is themed around Ansi Ladies.

Blocktronics is an international network of digital artists from around the world that are focused on, though not limited to, ANSI art, a computer textmode art form that was widely used on BBSes in the days prior to the World Wide Web. ANSI is constructed from the 256 alphanumeric symbols and glyphs found in IBM code page 437, and is sometimes referred to as extended ASCII.

Blocktronics members have won numerous awards at various competitions around the world, and there have been gallery exhibitions showing Blocktronics works in Argentina, Germany and China.
